# OUR NEW SCHOOL

## PROVIDING ACCESS TO EDUCATION IN TANZANIA

High on a mountain overlooking the Serengeti sits the remote village of Olornoyo, Ngorongoro.

With no roads or infrastructure, the community here has very little contact with the outside world ... And, until now, has never had access to education.

We built our new school using local materials and traditional Maasai building methods to provide a safe place for learning.

Our school provides new access to education for a community of over 1,000 people, with a focus on children between the ages of 3 and 11 years old.

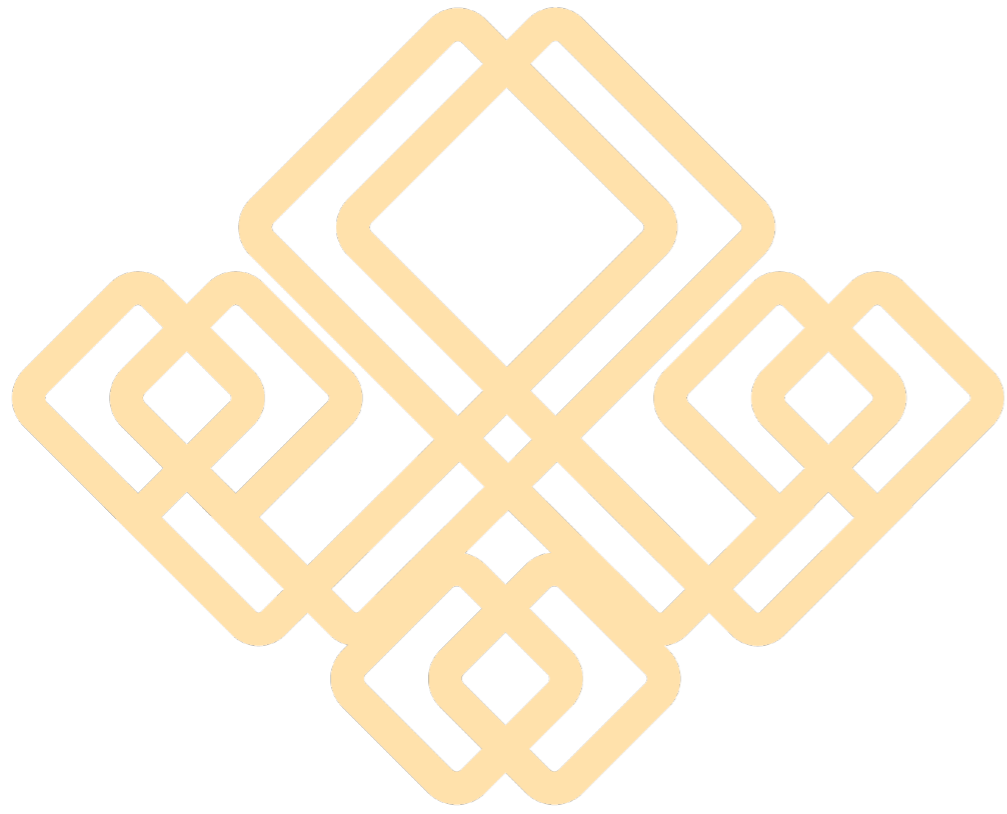

Once enhanced, our school will also serve as a centrally accessible community center and collection and storage resource for safe water.

# INVEST IN OUR COMMUNITY

## HELP EXPAND OUR CAPABILITIES

Partner with us to enhance the usefulness of the building structure and activate our new school's maximum potential for good in the community.

While our new building structure provides shelter from the sun, rain, wind and wild animals ... there are many more elements needed to bring the full impact of education and safe water access to our Maasai community in Olornoyo.

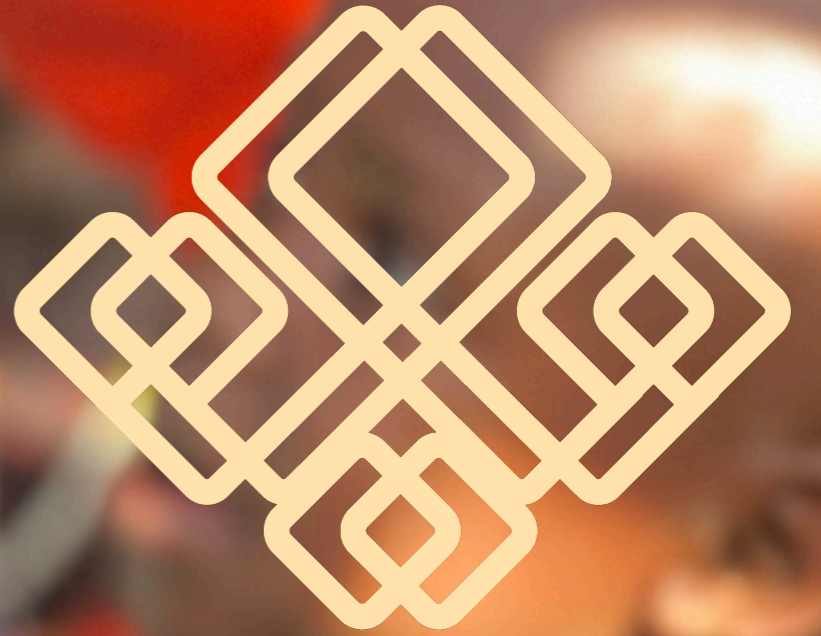

## INVESTMENTS NEEDED TO PROVIDE EDUCATION

FILL SCHOOL WITH DESKS	\$1,460
ONE YEAR OF TEACHER SALARIES	\$1,200
BASIC TEACHING SUPPLIES	\$740
BOOKS AND UNIFORMS	\$1,521
